

Instructions For:

CE-MPOP - Banner with Mini Pop-Up Stand

Product Specifications

Visible Graphic: 11" W x 17" H

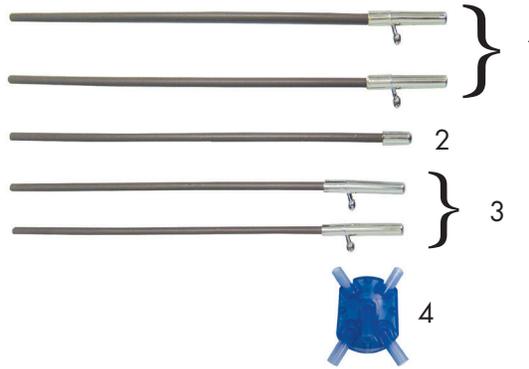

Graphic Requirements: #2 Grommets in corners

Foot Print Dimensions: 11" x 8"

Product Parts

- 1 - Bottom Legs (x2)
- 2 - Back Leg
- 3 - Top Legs (x2)
- 4 - Hub

Step 1

Take all parts out of the bag.

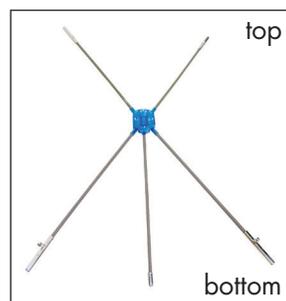

Step 2

On the Hub (4) rotate all 5 holes into the flattened position (the back hole will only partially flatten). Insert the Back Leg (2) into the hole on the back of the Hub (4). Slip each Bottom Leg (1) into the holes on the bottom of the Hub (4), being sure that the hooks face the front of the Hub (4) (away from the Back Leg (2)). Slip each Top Leg (3) into the holes on the top of the Hub (4), being sure that the hooks face the same direction as those on the Bottom Legs (1).

Step 3

Lay the assembled unit on the floor, hooks facing up. Lay your artwork, face up, on top of the stand, paying close attention to the top vs bottom.

Step 4

Slip each grommeted corner of the banner over each hook. You may find it easiest to do both bottom, then both top hooks. Please note that the legs will have to bend forward slightly when properly installed. This is necessary to maintain tension on the banner.

Stand the unit into the upright position and pull the back leg out to 1 of 2 standing angles.
